M. H. Blatz, Esq.,
South House Residence,
University of Toronto.

Dear Mr. Blatz:

I have to thank you for the invitation to my wife and myself to act as patrons for the Residence Dance a week from to-night. I think, however, that it is best for you not to put our names on the list as definite authorisation for the dances which are recognised by the University is given by the Caput, and so far only one for each of the Faculties has been arranged for. Moreover, the rule of the University is that all dances shall end at midnight, and I presume that this might not be the case with the dance that you contemplate. In those circumstances I think that it is best for my wife and myself not to be present.

Yours sincerely,

President.
